9 - QUALITY AND CLAIMS

We produce all Products to the appropriate standard specifications (CSA & ASTM). Products required to be manufactured to alternative specifications will be treated as special orders and be subject to the conditions set out above for special orders.

Variations in colour and shade range are inherent in concrete products due to the variation of aggregates, cement, oxide, and other variables through the curing manufacturing process. No claim will be allowed for any such variations. Submitted samples are to establish colour range, size and texture. Subsequent shipments may vary from such samples.

It is the buyer's responsibility to inspect and approve all Products delivered before installation. If the product is deemed to be unsatisfactory, Oldcastle APG Canada West must be notified before any installation is begun. The Company's liability for defective product shall be limited to replacing the defective material after an inspection and approval by your local Belgard sales representative.

Questions regarding quality, sizing, colour uniformity within a shipment or matching to prior shipments must be brought to the attention of a Belgard sales representative prior to installation.

Your receipt of any Products delivered will be an unqualified acceptance and a waiver by you, of any and all claims with respect to such Products unless you give us notice of a claim, in writing, within 15 days after such receipt. Once the Products have been installed, they are deemed fit for the purpose and become the responsibility of the installer. We will not recognize any claims made for Products that have been installed. You will be liable for any shortages on Products delivered, unless you give us notice of such shortages within 24 hours from receipt of delivery.

10 - EFFLORESCENCE

Efflorescence is a fine, white, powdery deposit naturally occurring phenomenon as various chemical salts make up a portion of the composition of the cement and aggregates used in the making of concrete masonry units, the mortar that binds the masonry units, and the grout that reinforces a concrete masonry wall system.

Efflorescence will usually wash or wear off in the course of time and the recommended procedure is to allow this natural process to occur. Oldcastle APG Canada West will not accept any responsibility for this problem. The removal of efflorescence from Products that have been installed is the responsibility of the installer.

11 - IMPURITIES

Impurities originating from concrete aggregates can occur due to the geological makeup of an area. Acceptable limits are based on CSA standard A23.1 Table 12 "Limits for deleterious substances and physical properties of aggregates" and petrographic analysis limits based on CSA 23.1 Table A2.1. The allowable limits for organics impurities such as coal is a colour plate maximum of 3; the maximum ironstone content for coarse and fine aggregate of 0.8% and 1.5%, respectively. It is the responsibility of the customer to inspect all Products prior to installation. No claims will be allowed for Product containing impurities after installation.

12 - LIMITED WARRANTY AND LIMITATION ON LIABILITY

Except as provided in this section, we make no warranty, express or implied, with respect to the Products. All warranty claims must be presented in writing within 6 months after receipt. We will not be liable under any circumstances for consequential, indirect, special, punitive or incidental damages, whether foreseeable or unforeseeable, based on claims of any party (including, but not limited to, claims for loss of goodwill, profits, use of money or use of products, stoppage of other work or impairment of other assets), arising out of breach of express or implied warranty, breach of contract, misrepresentation, negligence, strict liability in tort or otherwise.

In reference to the Belgard Products Warranty, visit www.Belgard.com/Warranty

In no case will we be liable for damages resulting in any way from faulty installation or improper use of Products. We will only be responsible to you for damages resulting directly from our use of products or materials which do not conform to specifications, and in no event will our liability exceed your cost of defective Products. If you have requested a Product be manufactured to specifications other, then we only warrant that the Product conforms to the specifications as agreed to between you and us. Tests have not been carried out under all possible use conditions and we cannot and do not warrant the performance of our Products when our Products are used for purposes other than their intended purpose.

In the event you establish a breach of the above warranty, your exclusive remedy against us, and our sole liability, is, at our option, the repair or replacement of the defective Products or the refund of the purchase price therefore EXCEPT AS EXPRESSLY PROVIDED HERE, ALL WARRANTIES, CONDITIONS, REPRESENTATIONS, INDEMNITIES & GUARANTEES, WHETHER EXPRESS OR IMPLIED, ARISING BY LAW, CUSTOM, PRIOR ORAL OR WRITTEN STATEMENTS BY US OR OTHERWISE (INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OR MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE OR OF USE) ARE OVERRIDDEN, EXCLUDED AND DISCLAIMED.

Expocrete TERMS & CONDITIONS – EFFECTIVE JANUARY 1, 2021

Except for payment obligations, neither of us will be liable for any failure or delay in performing an obligation that is due to causes beyond our reasonable control, such as natural catastrophes, governmental acts or omissions, laws or regulations, labor strikes or difficulties, transportation stoppages or slowdowns, or the inability to procure parts or materials.

14 - INDEMNITY

You will indemnify, defend and hold Oldcastle APG Canada West harmless from any and all claims, liability, costs, damages, and expenses, including without limitation, legal fees on a full indemnity basis, arising out of or relating to the Products provided by Oldcastle APG Canada West brought by any third party except to the extent Oldcastle APG Canada West actions are found to constitute willful misconduct.

15 - AMENDMENTS TO AGREEMENT

These terms and conditions may not be amended except in writing signed by both parties and will be governed by the laws of the Province of Alberta.

The foregoing terms and conditions of sale apply to all sales and offers made by and purchase orders accepted by Oldcastle APG Canada West. To the extent these terms and conditions conflict with or materially change the terms and conditions contained in your purchase order or other procurement documents, these terms and conditions will govern any agreement between you and Oldcastle APG Canada West. Any offer or acceptance is specifically limited to these terms and conditions.

The placing of your order or purchase of Products will conclusively confirm assent to these terms. Any failure by us to object to provisions contained in any communication from you will not be deemed a waiver of any of these terms.

16 - FORCE MAJEURE

Oldcastle APG Canada West shall not be liable for any failure or delay of performance due to causes beyond its control including, but not restricted to, acts of God or the public enemy, floods, fires, earthquakes, hostilities, war (declared or undeclared), acts of either general or particular application of any de jure or de facto government or any of its subdivisions, bureaus or agencies, strikes or other labour troubles whether direct or indirect, riots, insurrections, civil commotions, loss or shortage of labour, transportation, raw materials or energy sources or failure of unusual means of supply.

Should a failure or delay in Oldcastle APG Canada West performance occur because of any of the foregoing, the Company shall have the option of either cancelling an order or delaying performance hereunder for any reasonable period of time, during which the Agreement shall remain in full force and effect.

The Company shall notify the buyer as to the reason for its failure or delay in performance, and as to whether it has cancelled the order or delayed performance hereunder. If performance is delayed, the Company shall notify the buyer as to the length of time the delay will continue.
