

COVID-19 SAFETY TIPS

FOR LANDSCAPE CREWS

JOBSITE SANITATION

Wash hands with soap and water frequently for at least 20 seconds. Use Queen's "We Will Rock You" if you're tired of "Happy Birthday."

Queen's We Will Rock You Chorus (x3)
"We will, we will rock you (rock you)."
We will, we will rock you (rock you)."
We will, we will rock you (rock you)."

If soap and running water are not available, use an alcohol-based hand sanitizer.

AT LEAST
60%
ALCOHOL

Maintain social distancing (staying at least 6' apart). Halt work if needed, if customers or children come outside while crews are on the jobsite.

AT LEAST
6 FT
APART

Self-monitor for symptoms of COVID-19 [current CDC symptoms include cough, difficulty breathing, fever, chills, repeated shaking with chills, muscle pain.]

Stay home if sick and avoid close contact with sick people outside of work.

Wear cloth face coverings in areas where 6' distancing measures are difficult to maintain.

Cover coughs and sneezes; avoid touching your eyes, nose, or mouth with unwashed hands.

EPA-APPROVED

Use EPA-approved disinfectants. Look for products rated against SARS-CoV-2. Follow manufacturer's instructions for use.

COVID-19 SAFETY TIPS

FOR LANDSCAPE CREWS

DAILY OPERATION TIPS

Field teams should include the smallest number of employees that can safely carry out work at a site.

Drive separately to the site whenever possible.

ONLY ONE TEAM MEMBER
TO A VEHICLE

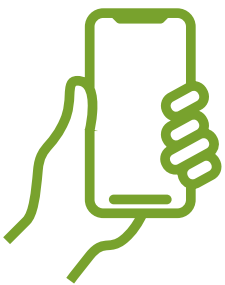

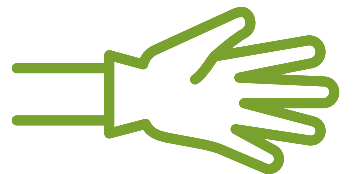

Only the driver should touch vehicle controls to avoid cross contamination.

Assign one truck to one crew and do not rotate.

Always wear face coverings, even while driving. Keep windows open whenever possible.

Wear disposable gloves to pump gas.

Don't use other crew members' phones, work tools, or equipment.

Spread crews throughout a site. Not everyone should be working on the same issue.

DISINFECT

machine handles, tools, safety glasses, safety vests, gloves, and soles of boots daily.

Keep approved sanitizing products in all trucks and clean frequently touched surfaces (steering wheels, tools, and door handles) often.

COVID-19 SAFETY TIPS

FOR LANDSCAPE CREWS

CREW LEADER TIPS

Ensure sick leave policies are flexible and consistent with public health guidance and that employees are aware of these policies.

Maintain flexible policies that permit employees to stay home to care for a sick family member.

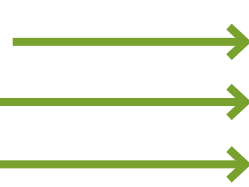

Provide crews with talking points to share with customers about the safety protocols you're following and the essential nature of your work.

Consider temperature checks prior to beginning work; anyone with a temperature over 100.4° F should return home.

STAGGER SHIFTS

to reduce the number of crew members on each job.

Isolate potentially infectious crew members from others on the worksite

Conduct crew safety training sessions and briefings in language(s) crews understand.

Cross-train employees to perform other tasks in the event crew members are out on sick leave.

CLIENT COMMUNICATION

Do not leave behind door hangers or other receipts. Execute communication with customers through email, phone call or video conference as possible.

Explain the essential nature of landscape services and detail any operational changes due to COVID-19.

Provide clients 24-hour notification via phone or email that you will be servicing their property.
